Firewood Sales

Customer Preferences for Delivery Dates are noted but are not guaranteed

Though we do our best to satisfy delivery preferences, we cannot meet every customer's preference. Customers will be contacted the week before one of the delivery weekends to arrange a specific time for the delivery. If you have not been contacted by Thursday evening, your wood will not be delivered that weekend.

Delivery Dates and Deliveries

Firewood deliveries with be completed the last weekend of September, and on weekends through October. In the event we need to adjust delivery dates or delivery options, confirmed dates will be determined and existing customers will be emailed near the end of August with all updated details.
